

It's Never 2 Late

Dignity through technology

The New Hampshire Veterans Home is looking to purchase the product pictured below to utilize for resident programming. Some of the most beneficial programs on the iN2L system include; reminisce “What Was There?”, therapeutic music, spiritual programming, multiple choice trivia on a wide variety of topics, and guided tours throughout the world. Another favorite is the word and TV games shows that stimulate cognitive processes.

“It’s Never 2 Late® (iN2L), founded in 1999, is dedicated to helping older adults realize the full benefits of today’s technology. iN2L integrates the hardware, software, media and various components necessary to allow virtually any person with any interest in using a computer — regardless of background, physical or intellectual abilities — to do so pleurably, engagingly, and without frustration. The system is built on a picture-based, touch-screen interface that allows users to simply “touch” their way to find engaging, educational, spiritual and personalized content that is appropriate to their own level of ability. From using e-mail and web cams to connect with family and friends, to enjoying mind-stimulating activities, to improving hand-eye coordination as part of a rehabilitation program, elders with a wide range of physical and cognitive abilities, most of whom have never used a computer, are now enjoying technology using systems adapted especially for them.”
