

Easterseals Veterans Count is the recipient of a few new (and renewed) grants that we'd like to tell you about in the hope of spreading the word about our services for veterans to your membership (and beyond!).

We are able to provide funded case mgmt. support to homeless/at-risk veterans and family members needing substance misuse treatment, we provide emergency financial assistance, we help veterans stabilize their housing, and we are now also able to provide clinical mental health counseling to veterans (individual and couples). We see opportunities for collaboration with the American Legion in these grants.

I'd love to come to a meeting and give more details.

Do you have a statewide District leadership meeting or do I need to connect with each District individually?

Thank you!

Stephanie
